# The Shepherdess

All the groups of our school went to the sheeps in our local wood. Our class went to see the shepherdess on the 13th of September.

The weather was beautiful. She told us many things about what sheep eat and what they do and how they obey the dog. She showed us pictures of fields where the sheep had been. Beautiful flowers were growing there. Later on we were allowed to

walk between the sheep. You had to be very quiet and silent. A lot of sheep had colours on their back. The shepherdess told us about that and that these sheep were pregnant. The dogs name was Fly and he only listened to English commands
