

The vegetable garden

The children of Het Baken (our school) are working hard in a beautiful vegetable garden. What did we do: We first took away the benches that were there, than we moved the tiles (very hard work) , so we made room for flowers, vegetables and potatoes. There ware tomatoes, different kinds of salades, potatoes, onions, herbs, courgettes, pumpkins, strawberries, beetroot, kohlrabi, French beans and some flowers. Our teacher prepared several soups (tomato and pumpkin)

mashed potatoes and cabbage, macaroni with courgette. We cleaned the garden and now there is growing curly kail and endive.

The End from: Jurnee & Luna
