

## Sinterklaas game

On Wednesday, December 5 was Sinterklaas.

Then we play a game. Before that we had three gifts under five euros to buy. We had to sit in a circle. We had a dice throw. If you threw one or six you could grab a present. When everyone had a present the game started.

So went the game:

If you threw one, you had a place and your gift underneath your seat.

If you threw two you get a gift for someone else's seat.

If you threw three you had to move two places..

If you threw four you had to turn.

If you threw five you had a gift exchange with someone.

If you threw six you could grab a present for yourself. Eventually everyone had three gifts.

End.
